About this document

This document outlines the new features, functions and changes added in the desktop version of Workspace 1.26.7 MR1:

Document version	Summary	Release date
1267MR1.01	Summary of updates in Workspace 1.26.7 MR1	25 July 2026

Intended readership

This document is for customers using or interested in LSEG Workspace version 1.26.7 MR1.

Supported versions

LSEG provides operational support for versions of Workspace released during the previous nine months (the obsolescence period).

Where there is a patch version, this version will be supported instead of the version it has superseded.

For more information about the specific versions that are currently supported, see the [Workspace Support Policy](#).

Build number

The build number for this version of LSEG Workspace is **1.26.725**

What's new in version 1.26.7 MR1

Fixed issues

Auto-update issue resolved

A bugfix to the DDP registration process has been implemented that will now allow the auto-update process to proceed as expected.

Workspace for Microsoft Office add-in

For the new features, enhancements, and bug fixes released in LSEG Workspace Office add-in version 26.27.4.0, which are now available in LSEG Workspace 1.26.7 MR1, [click here](#).
